

UNITED POWER

24/7 PROTECTION

INVISIBLE THREATS
DO NOT IMPLY NON-EXISTENCE

WHY LIV- 24?

**Instant notification
to promptly address
the cause before
any danger arises.**

Uncover unusual motion patterns activated by intruders and smoke stay alert to every perilous occurrence precise and reassuring for peace of mind.

**Intelligent security
technology operating
24/7.**

Delivering abnormality alerts directly to the LIV-24 Command Center staffed by LIV-24 agents monitoring around the clock facilitating prompt coordination for incident resolution.

ABOVE AND BEYOND CONVENTIONAL SECURITY SYSTEMS, WITH TRIPLE THE INTELLIGENCE.

HARDWARE

High-Quality installation equipment tailored for projects with practical performance

HUMANWARE

Expert analysts assessing risks and orchestrating immediate incident mitigation.

SOFTWARE

Distinguishing Itself from Conventional Systems, with software that Integrates Precise AI-Powered Detection, Intelligent Alerts, and Expert Analysis, Minimizing Time Wasted on False Alarms.

CCTV ANALYTIC

Intelligent CCTV Cameras Providing Real-Time Alert Notifications.

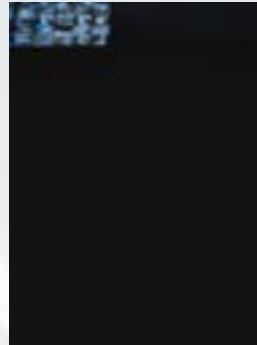

DIGITAL FENCE

Motion Detection Along Digital Fences Instant Alert Notifications.

GUARD TOUR

Implementing a Security Guard Monitoring System Improving the Effectiveness of Area Inspections

COMMAND CENTRE

Centralized Operations Center Monitoring, Coordinating, and Commanding for Seamless Operational Control

VISITOR MANAGE MENT

Enhancing Security Through Effective Management of Project Visitors

ACCESS CONTROL

Efficient Area Access Management with Keycards, RFID, and LPR

MOTION SENSOR

Detecting Movement and Providing Immediate Alert Notifications

BUILDING AUTOMATION SYSTEM

FULL PACKAGE

MONITORING & CONTROL

BAS

BUILDING AUTOMATION SYSTEM

BUILDING ENGINEERING

Management and control system for building engineering systems enabling efficient alerts and reporting with optimal performance.

ENERGY MANAGEMENT

Monitoring energy consumption detecting abnormal energy usage and controlling energy consumption Optimally.

SMART BILLING

Automated receipt management system For water and electricity expenses eliminating the need for manual record-keeping.

LITE PACKAGE

MONITORING

LIV-24 IoT Monitoring

Real-time notification of building engineering system irregularities for proactive inspections prior to impacting building users.

BENEFITS OF HAVING OUR SERVICE

LIFT UP SECURITY STANDARD

24/7 Security System monitoring empowered by AI for real-time analysis and instant notifications.

VALUE ADDED

Establish a unique selling proposition by elevating the security standards, enhancing business value and differentiating it in the market.

IMPROVE EFFICIENCY

Provide risk assessment capabilities and design solutions that enhance work efficiency and mitigate human error.

COST SAVING

Implementing technology to enhance efficiency and achieve Long-Term cost savings.

Proven through **300,000** detected incidents,
LIV-24 effectively mitigates every occurrence.

0

**INCIDENTS POSING RISKS
TO LIFE AND PROPERTY.**
